SUMMARY

A passionate and results-driven **Full Stack Developer** skilled in **MERN, Flutter, and Web3**. Experienced in building applications, integrating APIs, and deploying complete end-to-end solutions. Actively seeking exciting opportunities to contribute to innovative and growth-oriented software projects.

EDUCATION

- SRM Institute of Science and Technology** Chennai, India
B.Tech in Information Technology; CGPA: 8.66 July 2022 – June 2026

EXPERIENCE

- Tech Machers** Singapore (Remote)
Flutter Developer Intern April 2025 – December 2025
 - Maintained and optimized the existing Flutter codebase to improve app stability and performance.
 - Developed and enhanced user-friendly features using **Flutter** and **Dart** with **Provider** state management.
 - Integrated RESTful APIs and collaborated with backend and design teams to deliver smooth and responsive mobile.
- Global Info Technologies** Chennai (Remote)
Full Stack Web Developer Intern October 2024 – December 2024
 - Built responsive web applications using the **MERN** stack with **JWT authentication** and secure API routes.
 - Delivered key features within deadlines while collaborating in a 4-member agile development team.

SKILLS SUMMARY

- Languages:** JavaScript, Dart, Solidity, C++
- Frameworks / Libraries:** React.js, Node.js, Express.js, Web3.js, Flutter, Truffle, OpenZeppelin, Socket.io
- Database:** MongoDB, Mongoose
- Tools:** Git, GitHub, Postman, VS Code
- Soft Skills:** Leadership, Problem-solving, Adaptability, Time Management

PROJECTS

MediPlus

- Developed a decentralized hospital management system that connects hospitals, pharmacies, and patients for secure data sharing and communication.
- Used **Solidity, React.js, and MetaMask** to build blockchain-based medical record storage and verification with transparent access control.
- Improved data privacy and trust by ensuring all medical transactions are tamper-proof and securely stored on the blockchain.

Fast Scholar

- Created a **MERN-based** web platform for managing scholarships with full transparency between donors and students.
- Integrated **Razorpay** for instant and secure payments, enabling verified transfers and real-time fund tracking.
- Simplified the entire process with approvals, easy dashboards, and a responsive, user-friendly interface.

Pizza Delivery App

- Created a full-stack **MERN** app for pizza ordering, live tracking, and secure user management.
- Added **JWT authentication**, role-based access, and integrated **Razorpay** for payments.
- Optimized APIs using **Express.js** and **MongoDB** for faster and smoother performance.

SRM CGPA Calculator

- Developed a simple and accurate **React.js**-based CGPA calculator for SRM students to compute their grades easily.
- Used **Node.js** and **MongoDB** to handle course grade data dynamically for instant and precise GPA calculation.
- Helped students track their academic performance efficiently with an interactive and reliable web interface.

CERTIFICATIONS

- Blockchain Basics:** Coursera – University at Buffalo
- Blockchain Platform:** Coursera – University at Buffalo
- Advanced React:** Coursera – Meta
- Node.js and Express Backend Development:** Coursera – IBM
- Ethereum Blockchain Developer Bootcamp:** Udemy

ACHIEVEMENTS & ACTIVITIES

- Winner – CodeWeb Hackathon (2024):** Led team to build a full-stack app in 12 hours, securing 1st place at Texus.
- Winner – OOFY HACKS 1.0 (2024):** Built a decentralized medical dApp that won first place.
- Speaker – Blockchain Synergy Event (2024):** Hosted blockchain and NFT workshops for 100+ attendees.
- Joint Secretary – Chat Club, SRM (2024–2025):** Organized weekly coding sprints and tech discussions.
